

Explanation of Calendar Items

DTS: Discipleship Training School. A program run by Youth with a Mission (YWAM). Stephen has been invited to teach in this program -- in January and in August.

EFM: English for Missions. A program run by YWAM to enhance the English speaking abilities of Asian Christians who wish to be involved with YWAM in mission programs. Karen has been invited to teach in this program.

CNY Outreach: Chinese New Year Outreach. We have obtained permission from the village elders to do face painting and balloons for the kids at the annual festival held 15 days after Chinese New Year. We will also be allowed to have literature, with a blessing for the New Year (including John 3:16), on our table for people to pick up. This is One Voice for Asia's first official outreach in the village. Praise the Lord!

Village Outreach: We believe the Lord has given us a strategy for reaching out to the village in which we live. Each month we plan to do something in the village - face painting, balloons, clown, etc. - so that the villagers become get to know us better. Our prayer is that we will be invited to participate (from a Biblical perspective) in the festival in November and establish a spiritual platform for reaching the village for Jesus. By the way, why don't you pray about joining us in November to intercede and do battle in the heavenlies?

HKMTS: Hong Kong Ministry Training School. We are teaming up with some new friends, Steve & Sharmin Fischer. They started the school last year. This year we will be assisting them. For more information check their website at www.hkmts.org

Leadership Institute: As we have been waiting on the Lord for direction, and networking with churches and ministries here in Hong Kong, we believe the Lord is leading us to focus on the areas of developing leaders and team building as we launch One Voice for Asia in Hong Kong. We will begin by developing the Hong Kong Leadership Training Institute which will train leaders in the Biblical and practical principles of character based leadership. The materials we develop will be primarily based on the training we have received from Dr. John Maxwell.

Questions?

If you have any other questions about what we're doing this year, please feel free to send us an e-mail at
